

FUN FRIDAY INNOVATION DRILLS

Playful Paths to Serious Learning

Our success lies in using an Indigenously Designed Scientific - Creative Approach, Cutting Edge Pedagogy i.e. Nano Learning, Gamified Workshops, Experiential Learning; Hyper Personalized Mentorship - Hand Holding, and Delivering Tangible Outcomes in a Stipulated Time Frame

WHY PLAN FUN FRIDAY INNOVATION DRILLS?

In today's organizations the week passes by in a Fast Forward mode. To catch up with life, Friday afternoons become very important time slots for colleagues to breathe back some life within the organization. In a light hearted delivery Fun Friday workshops help employees and teams to tackle range of challenges and opportunities which may lead to organization difficulties.

 • Explorra's Fun Friday is a delightful and compact program helping organizations build innovation capabilities through camaraderie and belongingness amongst their employees. 😊
 • x ▲

The program is designed to drive the team towards a single goal with tangible solutions. It leads participants in an immersive learning experience, focusing on pre-decided organizational opportunities and challenges. The process driven & systematically planned activities set the tone for some Serious Learning - the Fun Way!

INTERESTING EXERCISES

THINK OF YOU BEING ONE OF THEM

The program encourages participants to proactively wear different personality hats so as to go on a journey of identifying, analysing and creatively resolving opportunities and or challenges. This is done through interesting activities and scientific concepts.

ABOUT THE PROGRAM

The Fun Friday Innovation Drill for corporates drives home the point of developing better understanding and coordination with team problem solving / possibility seeking. The program encourages participants to proactively and collaboratively work on identifying, analysing and resolving issues as and when they occur. Thereby developing highly efficient cross-functional teams for the benefit of the organization. These quick actions from staff will have a tremendous positive impact on the organization's operations

ABOUT EXPLORRA

Pioneered the Design led Innovation Movement in India, equipping the workforce with necessary skills and competencies to enhance employability and holistic progress.

Explorra is led by a consortium of forward looking educationists and professionals having diverse expertise through rich experience. Our team offers specialised inputs to industry, government and academia in innovation, design pedagogy, digital transformation, change management, organizational development, management skills, start up and entrepreneurship.

Explorra engages with the corporates, government agencies for programs, workshops and consulting projects of strategic & tactical involvement serving global corporate clients based in India, China, Europe, Australia & USA.

Explorra received the prestigious '*Shiksha Bharti Puraskar*' for training and providing meaningful employment to 100000+ students over the last two decades, and, '*Indian Leadership award for Education Excellence*' for excellent curriculum and courses apt for 21st Century Needs.

OUR OTHER PROGRAMS

Industry Clinic Program

Problem Solving through Creative & Critical Thinking

The Clinic approach helps in the holistic Diagnosis of situations, challenges, and possibilities. From there on, we generate an inclusive Prescription through an iterative method using the latest tools, techniques and business approaches so that multiple solutions can be found in a tangible timeframe. This program is conducted in a workshop mode and promotes an indigenously developed framework of creative and critical thinking, solving participants' real-life problems & challenges.

Future Leader Program

Igniting Leadership Potential

Explorra's Future Leader Program focuses on developing leadership skills and aptitude amongst organizational employees. We firmly believe everyone has the potential for leadership at some level or other. FLP is offered in a customized format orienting the content to best serve the purposes of the organization. We specialize in handholding through the program till desired tangible outcomes are achieved.
